Abstract. As the questions concerning what makes up a right and those concerning enforceability are separate, one may not per se deduce anything about rights from the nature of the legal sources from which they derive. Another matter is that different sources of rights often mean different types of rights.

INTRODUCTION The sources of international law are not the same as those in domestic law. The two major sources creating legally binding rules of international law are treaty and custom. In domestic law the question of the source of a rule or law is seldom controversial. Common law systems rely upon statutes and the decisions to be found in court judgments for evidence of the existence of the ...

The law of obligations is one branch of private law under the civil law legal system and so-called "mixed" legal systems. It is the body of rules that organizes and regulates the rights and duties arising between individuals. The specific rights and duties are referred to as obligations, and this area of law deals with their creation, effects and extinction.
