European Medieval Tactics New Infantry

Slowly, tactics emerged by which more numerous and more varied infantry played an increasing part in battles. The best-known examples of this 'democratization of the battlefield' are the English longbowmen who won battles against French knights in the Hundred Years' War, and the massed Swiss spearmen and halberdiers who did the same in wars against the Dukes of Burgundy.

European Medieval Tactics (1): The Fall and Rise of ...

Medieval warfare is the European warfare of the Middle Ages. Technological, cultural, and social developments had forced a severe transformation in the character of warfare from antiquity, changing military tactics and the role of cavalry and artillery (see military history). In terms of fortification, the Middle Ages saw the emergence of the castle in Europe, which then spread to Western Asia

Medieval warfare - Wikipedia

A siege is a military blockade of a city, or fortress, with the intent of conquering by attrition, or a well-prepared assault. This derives from Latin: *sedere*, lit. 'to sit'. Siege warfare is a form of constant, low-intensity conflict characterized by one party holding a strong, static, defensive position. Consequently, an opportunity for negotiation between combatants is not uncommon, as ...
