### Japan History, Language and Culture - World Travel Guide

The Paleolithic Period in Japan is variously dated from 30,000 to 10,000 years ago, although the argument has been made for a Lower Paleolithic culture prior to 35,000 bce. Nothing certain is known of the culture of

the period, though it seems likely that people lived by hunting and gathering, used fire, and made their homes either in pit-type dwellings or in caves.

#### **Japan - History | Britannica**

Japanese Culture. Japan has a fascinating and multifaceted culture; on the one hand it is steeped in the deepest of traditions dating back thousands of years; on the other it is a society in a continual state of rapid flux, with continually shifting fads and fashions and technological development that constantly pushes back the boundaries of the possible.
