7 Types of Power in the Workplace - hr bartender

Power, a word that gets the adrenalin going in some and strikes fear in others. Workplace power is an integral part of any business environment. In her book "What Keeps Leaders Up at Night" psychologist Nicole Lipkin describes the idea of six types of power previously introduced by psychologists John French and Bertram Raven.

Workplace Power — What is It? How to Use It?

The most easily understood indication of power in the workplace is title or hierarchy. The CEO, the owner, the HR director, the boss, or the manager are common representations of the traditional view of power. Beyond title or position within the organization, power comes from other sources: Physical attributes, such as gender, appearance, and age

Understanding Power in Workplace Conflicts - dummies

Harvard Business Review asserted that a leader who consciously cultivates an attitude, either positive or negative, in the workplace will pass that attitude on to the employees in his or her charge. Handling power positively can motivate and inspire others to be the best they can be. A good leader builds great teams and builds up the team members.
