Give us a call whenever your ongoing marketing demands require the best exhibit service your promotional dollars can buy.

Transmission Swap Automatic To Manual

In order to swap your automatic transmission for a manual (or vice versa if that's your objective), you'll need to disconnect the current coupling material and install the new one. There will also be entirely new pedal assemblies that are required, and, of course, the shifter and connecting components. Finding New or Used Parts for Transmission Swap A Donor Car

Automatic to Manual Transmission Swap | CJ Pony Parts

The brake pedal for the automatic will need to be replaced with a complete manual brake and clutch installation. On a rear-drive vehicle, the drive shaft may also need to be replaced. A separate bell housing, clutch mechanism and hydraulic or manual clutch mechanism will be needed and, finally, a shifter and linkage.
